This document helps you view the username and password for your K-12 student. This username and password allows your student to access Google G Suite, Canvas (grades 6-12), and much more.

1. Go to http://caschools.us/ and follow the links to log into FACTS Family.
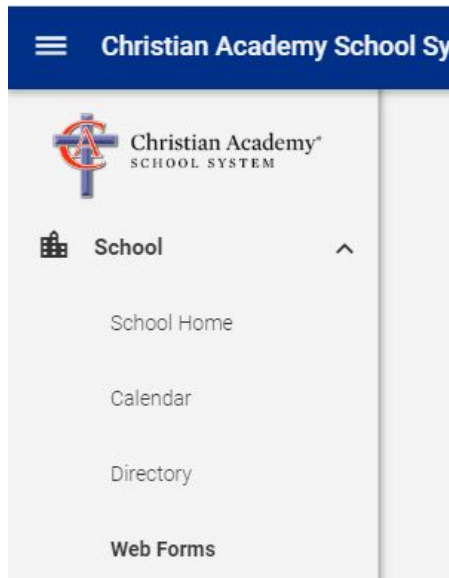

*If you have not yet created a parent account and would like to do so, click here.*

2. Once you log in, you will be presented with the new, mobile-friendly FACTS Family Portal screen.
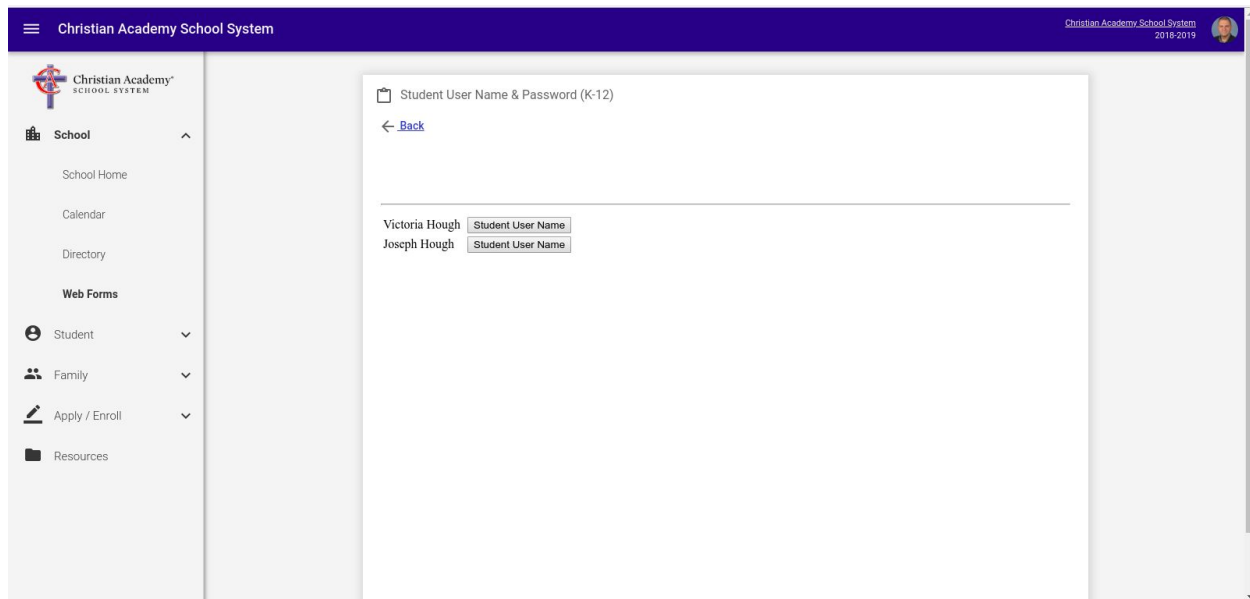

3. Click **School | Web Forms**.

4. Under Web Forms, click **Student Username and Password (K-12)**.

5. Select your student. In my case, I have two children enrolled.

6. At this point, you should see a screen with your student's username and password.

If you have any problems, please email support@caschools.us.
